THE CITIZENS BANK of BATESBURG

Does not have to "BLOW SO HARD", for the banking business is going their way without it.

The word "NATIONAL" in a Bank's title does not carry with it security nor safety of the funds entrusted it. DO NOT BE MISLED. You rarely ever hear of a State Bank failing. The Citizens Bank of Batesburg is a State Bank, operated and controlled by our own home people, among whom are the best, most progressive—the leading business men of the community—men who have won the confidence and respect of all.

In any Bank you have to depend on the people who own and control it. Compare the CITIZENS BANK OF BATESBURG with any. It is a bank "of the people, by the people, for the people" and has advantages over many. They want to do business with you. Call to see them, talk matters over, for they have ample resources and will protect their customers.

ORGANIZED IN 1851. YOU CAN WIN WITHOUT DYING.

Though you are bound to win if you die, provided you are insured. ARE YOU?

The Insured under policy 106 037 in the PHOENIX MUTUAL LIFE INSURANCE COMPANY, who took out a 20-Year Endowment, near middle life, is very much alive. This is how he won:

He Received

at maturity, the face value of the policy—

\$10,000

He Paid

Twenty annual premiums and received in annual dividends \$2,564, making the net cost only

\$7,280

His Profit was \$2,720 or over 37 per cent more than he paid, even at his age.

Wasn't That Winning?

Had he died during the 20 years, his Beneficiary would have received the \$10,000 plus the annual dividends up to that time, whatever year, which, say, at two years would have been \$10,230, at ten \$11,330, and so on. THIS TELLS THE STORY: "WE PAY ANNUAL DIVIDENDS."

"THE SAVING HABIT"

Have you ever made a resolution to save, to "put away for a rainy day," a part of your monthly salary or a part of the net earnings from your farm?

Perhaps you have made such a resolution—more than once—and tried your best to carry it out, only to have all your good intentions broken away with repeated temptations to spend.

But have you ever tried saving with a savings account in The First National Bank of Batesburg? You'd find it a great help. You are apt to think twice before withdrawing money from the bank, where it might be spent without a second thought if it conveniently lay about the house or in your pocketbook.

Then think, too, of the additional safety afforded the customers of a bank and the interest your money would earn.

You can open a saving account in The First National Bank of Batesburg with any amount from one dollar up, so it should require but little effort to put this good resolution into effect at once—without any more putting off.

Don't hesitate to open an account because you think your deposits would seem small—or because you may not be able to call at the bank in person. You can transact your business through the mails just as satisfactorily—an inquiry will bring full particulars as to how you should go about it.

We will hope to hear from you soon and have the pleasure of adding your name to the large number of depositors in our Savings Department.

Money has an ever increasing earning capacity—it works while you sleep. No use to keep money unless you make it work for you. One dollar, five dollars, ten dollars, one hundred dollars, deposited NOW with The First National Bank of Batesburg will be worth in twenty years more than double its present face value. Tell your neighbors and your friends about it.

The First National Bank of Batesburg pays interest four times a year, Compounded Quarterly.

An Important Question Settled

As more than two-thirds of the human body is composed of water, it is all important that one's Drinking Water should be pure. Impure Water is more dangerous than adulterated food. It costs less to buy GLENN SPRINGS MINERAL WATER and thereby keep in health than to restore your health when once it is lost. This important question of health can be solved by the use of GLENN SPRINGS WATER, which is not only free from impurities, but which itself will purify, invigorate and strengthen. As a remedial agent it has no equal, being a specific for all diseases of the Liver, Stomach, Kidneys and Skin.
